**FTSsteeldetailing.com**

**Incorporated 1998, Kootenai County, Idaho.**

We are miscellaneous steel detailing experts and offer full service in-house structural detailing with Fabtrol and CNC support.

**Summary of our background:**

Kevin Bissing, founder:

Education: 1981, B.S. University of Idaho; 1989, M.B.A. Cal-Poly, Pomona, CA.

Work experience: 1979 to 1984, Contour Company, Inc. Family business. Apprenticed in machine and fabrication shop three years and office two years. Machine shop built Wind-Tunnel testing models for the aerospace industry, and fabrication shop produced machine tools for the cabinet industry.

-1984-1988, Rainbird Sprinkler. Maquiadores Production Coordinator for 33 product lines in Mexico.

-1988-1992, All-Power Manufacturing, Materials Manager for Aerospace machine shop.

-1992-1996, Partner and owner/operator of Bamco then Anndrew Manufacturing, a Boeing supplier fabricating and repairing machine tools and ground support equipment. Entered into structural and miscellaneous construction fabrication at this time.

-1996-1998, closed fabrication company after an injury and began contract work as project manager, estimator and detailer for EDCO Mfg, SIS Northwest, and others manufacturing machine tools and various miscellaneous construction materials.

-1998-present, operated Fabrication Technical Services, Inc. primarily providing steel detailing services.

Detailing crew:

Mature in depth and breadth, the four-man crew represents over 80 years of experience. Amongst the most notable prior employers includes Dixie Metals in Florida, one of the largest miscellaneous metals suppliers in the southeast, and Conveyor Engineering Inc., a worldwide supplier of mining conveyors. Amongst the most varied prior employment includes AUTodesk support technician, and Magic International marketing analyst and ACCESS developer.

**Primary drafting tool:** SDS/2, Steel Detailing System, by Design Data first implemented in the year 2000. Now 5 licenses.

**Select list of repeat customers past and present:**
